Foliar Spray • Brush-on • Tree Paste

*Depending on how much water is added.
** 1 pint can make 5 gallons of foliar spray!

* Cannabis suggested application from germination, cloning to pre-budding growth.
** IV Organic dries on porous, allowing moisture & nutrients to pass (example, pruned branches & foliar feeding) through coated surfaces, compared to latex paint & tar-based products!
*** Also, give your plants ALL the MacroNutrients they need with 6Macros PLUS+ fertilizer products by IV Organic!
